To Replace the Solar Pumps

29/01/2024

06/02/2024

*14/18/142 Dr. ABHE SINGH YADAV(Nangal Chaudhry)

Energy Minister

Will the Energy Minister be pleased to state:-

- a) whether there is any policy under consideration of the Government to replace the Solar Pumps already given to the farmers by electric connections where the water table has gone down and solar pumps are not successful;
- b) the reasons in regard to the certain villages of district Mahendergarh have been declined electric connections and they are being pressed for solar connections in spite of the low water table; and
- c) whether there is any proposal under consideration of the Government to review and reassess the entire situation in the matter after getting reverification of the feasibility and actual level of the ground table of all such villages?
