Will the Health Minister be Pleased to state that:

Will the Health Minister be pleased to state whether it is a fact that a medical officer at Health Department gets his/her first promotion only after a long period of around 20 years to the next level of SMO as result of which many of them retire before getting even the first promotion and there is no system of time bound promotions for medical officers in State; if so, whether there is any proposal under consideration of the Government to make any policy for their promotion in order to decrease the long time period of promotional channel so that the stagnation may be avoided togetherwith the details thereof ?
