## **To Re-construct Culvert**

- 349. Shri Sita Ram Yadav, M.L.A.:** Will the Chief Minister be pleased to state whether it is a fact that the culvert of canal on the way of village Ateli to Ganiyar in Ateli Assembly Constituency is in dilapidated condition; if so, the time by which the said culvert is likely to be reconstructed?

**Sh. Manohar Lal, Hon'ble Chief Minister, Haryana**

Yes, Sir. The work will be completed by the end of June, 2021.

**Additional Information**  
**Unstarred Assembly Question No. 349**

The bridge from Ateli to Ganiyar was constructed on a pucca road crossing Ateli Distributary at Kilometer 20.660 at the time of construction of the channel during the year 1982. The bridge was constructed at right angle of the channel. But the pucca road is crossing the channel at skew angle which involved in many accidents due to heavy traffic. At Present, the bridge is in dilapidated condition and requires immediate reconstruction although estimate for repair parapets have been prepared which is under process of sanction but will not serve the purpose due to skew bridge. It requires reconstruction at proper crossing. A tentative cost involved will be Rs. 12.00 lakh. The work will be completed by the end of June 2021.
