Will the Minister of **AYURVEDA, YOGA AND NATUROPATHY, UNANI, SIDDHA AND HOMOEOPATHY (AYUSH)** be pleased to state:

- (a) whether any research work is being carried out to genetically modify herbal drugs for the treatment of incurable diseases;
- (b) if so, the details thereof;
- (c) if not, whether the Government proposes to initiate research work in the field of herbal drugs for the benefit of people suffering due to non-availability of proper medicines; and
- (d) if so, the details thereof?

**ANSWER
THE MINISTER OF STATE(IC) OF THE MINISTRY OF AYURVEDA,
YOGA & NATUROPATHY, UNANI, SIDDHA AND HOMOEOPATHY
(SHRI SHRIPAD YESSO NAIK)**

(a) to (d): A statement is laid on the Table of the House

**STATEMENT REFERRED TO IN REPLY TO LOK SABHA
STARRED QUESTION NO. 148* FOR 27TH JULY, 2018**

- (a) No Sir. No such research is being undertaken by any Institute of the Government.
- (b) Does not arise in view of answer to part (a) above.
- (c) Research work in the field of herbal drugs is being carried out by a few organisations under Ministry of AYUSH {like the Central Council for Research in Ayurvedic Sciences (CCRAS), Central Council for Research in Siddha (CCRS), Central Council for Research in Homoeopathy (CCRH) and Central Council for Research in Unani Medicine (CCRUM)}, as well as the Council of Scientific and Industrial Research and Department of Biotechnology under the Ministry of Science and Technology. The work being carried by the afore-mentioned Central Councils for Research include research into validation of classical drugs as well as development of new drugs.
- (d) The details are at Annexure-I.

Details of research work in the field of herbal drugs**1. Research Councils under Ministry of AYUSH**

The Research Councils under Ministry of AYUSH viz. Central Council for Research in Ayurvedic Sciences (CCRAS), Central Council for Research in Siddha (CCRS), Central Council for Research in Unani Medicine (CCRUM) and Central Council for Research in Homeopathy (CCRH) are engaged in research work in the field of ASU&H herbal drugs. The research on herbal drugs comprise of development of new drugs and research on classical Ayurveda, Siddha, Unani and Homeopathy drugs by adopting systematic and scientific methods. These Research Councils have so far developed 60 new ASU&H drugs and another 53 drugs are actively under developmental phase. Further, 209 number of classical ASU&H drugs have undergone research and generation of evidence in these Councils on their safety, efficacy and rational use. Additional details about these herbal drugs are given in Annexure II.

2. Council of Scientific & Industrial Research (CSIR)

The Council of Scientific & Industrial Research (CSIR) under the Ministry of Science & Technology has active programs for non-genetically modified herbal drugs that provide affordable treatment to the common man. So far, following herbal drugs have been developed by CSIR by combining capabilities of traditional knowledge and modern science:

Herbal Drug	Use
Isaptent	Cervical dilatation (MTP)
Gugulipid	Hypolipidemic
<i>Bacopa monniera</i> extract	Memory improvement
Consap Cream	Spermicidal cream
Dalzbone	Accelerated fracture healing
BGR-34	Blood Glucose Regulator
Liv-1	Hepatoprotective

3. Department of Biotechnology (DBT)

The Department of Biotechnology (DBT) under the Ministry of Science & Technology supported a project on enhancing the content of artemisinin (an anti-malarial drug) in *Artemisia annua* plant following chloroplast metabolic engineering approaches jointly at International Centre for Genetic Engineering & Biotechnology (ICGEB), New Delhi and Jamia Hamdard, New Delhi. Besides, the DBT has supported large number of projects for developing drugs from medicinal plants in various disease segments such as diabetes, dengue, malaria, chikungunya, cancer, urolithiasis, leishmaniasis, bronchial asthma, skin and wound infections, etc.

Details of new drugs developed, new drugs under developmental phase and number of classical ASU&H drugs undertaken for research and generation of evidence on their safety, efficacy and rational use.
